Width:

75.000 inches

Depth:

30.000 inches

End Application:

Lc-130h/c aircraft age.

Electrical Power Source Relationship:

Self-contained

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Power; simulation

Functional Description:

Provides mounting, simulation, wiring, plugs, test points, and controls for operation and troubleshooting of the system

Height:

75.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
