**End Application:**

Turbofan engine f100-pw-100/200

**Nominalheight:**

10.000 inches

**Nominaldiameter:**

30.000 inches

**Special Features:**

Steel; company item name-fixture

**Functional Description:**

Used to secure the case while tack welding the new flange; retrofit 4 kc

**Unpackaged Unit Weight:**

190.000 pounds

**Reference Data And Literature:**

Serd no. 5771

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
