End Application:

Turbofan engine f100-pw-100/200

Nominalheight:

19.000 inches

Nominaldiameter:

35.000 inches

Special Features:

Steel; company item name-fixture

Functional Description:

Used to hold diffuser case with the rear flange down, and the 10-13th case with the front flange down

Unpackaged Unit Weight:

286.000 pounds

Reference Data And Literature:

Serd no. 5300

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
