**Overall Length:**

6.000 inches

**Overall Height:**

10.371 inches

**Overall Width:**

15.100 inches

**End Application:**

Ef/f/fb-111 ais-r aircraft age.

**Test Item Connection Method:**

Cable

**Functional Classification:**

Aa-12.11

**Functional Description:**

Used for electrical interface between the test stations and the lurs

**Fsc Application Data:**

Test station, electronic warfare; test station, radio frequency; test station, video, and test station computer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A537k0
