Product Name:

Drawing title cwi hv/test/dielectric bath test station

Special Features:

C/o oscilloscope mainframe; time base plug-in; dual amp plug-in; scope probes; pulse generator; digital multimeter; hv probe; power input and control panel; high voltage load panel; control and monitor panel; test interface panel; decade resistance panel; power supply shelf; hydraulic control panel air cooling panel; supporting fixtures; power: 115 vac, 60 hz, 3 phase (15a/phase) input power

Functional Description:

Determine performance status of suspect uvps assemblies, enable internal electronic adjustments and or fault isolation, and provide performance verification testing for repaired assemblies (sru) on the f-16 fire control radar antenna

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
