End Application:

6f39-ge-1c engine

Functional Classification:

Gg-7.4

Special Features:

Cc/o 2 circular plates mtd on a threaded rod that maintains pressure between stages 11-13 and 14-16 compressor rotor spool by manually releasing the force of a spring compressed between the plates

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
