End Application:

F-15-e acft

Nominal length:

5.000 inches

Nominal width:

4.625 inches

Nominal height:

4.000 inches

Special Features:

Matl: alum; c/o a plate w/4 legs and a center hole w/2 tapped holes to secure pump sleeve

Functional Description:

Used to hold the charge and inversion pump sleeve and the scavenge pump sleeve in an upright position during installation of components on f-15e csd vane-type pumps

Unpackaged Unit Weight:

7.000 pounds

Reference Data And Literature:

Serd no. 8192

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
