End Application:

Kc-135r aircraft age.

Nominalheight:

18.000 inches

Nominaldiameter:

36.000 inches

Special Features:

Nflanges to hold the combustor in alignment. The combustor is held fwd end down. Rotary plates which pivot about the ctr of the fixture which provide mounting for dial indicators. Height/go-no-go gages are provided

Functional Description:

At overhaul the combustor assembly needs to be inspected for conformance to specifications. After repair of the combustor, inspection is required. This fixture to provide the necessary tooling to hold the combustor assembly and make the inspections

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A505c0
