Ac Voltage Rating:

118.0 volts

Frequency Rating:

400.0 hertz

End Application:

B-52g/icsms

Test Item Connection Method:

Cable

Phase:

Three

Functional Description:

Used as an interface to test the integrated conventional stores management system 3-phase test assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
