Special Features:

C/o thrust frame adapter; engine support frame and mounting adapters; inlet tooling support and actuation system; bellmouth/screen assembly; k-seal and probes; filter package; tank servicing equipment; fuel and air line assembly; throttle actuator assembly; hydraulic and pneumatic hoses; starter, gearbox assembly; flameout margin monitoring system; start stall bleed system; storage stand; dolly; cable harness assembly; control room control; signal conditioner; indicator chassis; dvm chassis; lamp driver chassis; t4b chassis; airframe function simulator; a8 dc signal; a8 synchro signal; pressure synchro; vibration monitoring equipment; monitoring system; fault logic chassis; t4b monitoring system; bus system; cable; fwd and aft bottle assembly; temperature probe; blankoff kit; cooling; synchro unit; inlet assembly; encoder assembly; fan duct probes; accelerometer assemblies; stage cover plate; dummy engine; adapters

Functional Description:

Used to modify depot jet engine test facility; f110-ge-100 engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
