End Application:

F110-ge-129 aircraft engine

Nominal length:

30.000 inches

Nominal width:

16.000 inches

Nominal height:

15.000 inches

Special Features:

21.0 lbs

Functional Description:

Used to set the actuators at the same length so that actuator ring parallels the exhaust duct aft flange

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
