End Application:

F-15e acft

End Item Source:

76301

Usage Design:

Generator test stand

End Item Name:

Test stand

Special Features:

Drive adapter is 12 in. Diameter x 8 in. L, gcu is 7.4 in. X 4.3 in. X 5.2 in., cta is 6.6 in. X 3.3 in. X 2.5 in.

Functional Description:

Used to electricall/mechanically interface the f-15e primary generator to the a13112 test stand for testing

Unpackaged Unit Weight:

50.000 pounds

Reference Data And Literature:

Serd no. 8227

Supplementary Features:

Company name-adapter kit, test stand, primary generator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
