End Application:

B-1b aircraft age.

General Description:

Electrical characteristics: 2 18.5 ghz freq range, 15 db min at maximum operating input power at 10ma drive current carrier suppression, 3 nsec maximum switching speed, porm 10 degrees (from 180 deg) phase accuracy, porm 0.75 db amplitude balance, 50 ohms nom impedance, 2.0: 1 maximum vswr; temp range: operating: 0 degrees c to plus 55 degrees c; storage minus 65 degrees c to plus 85 degrees c; o/a dim: 2.000 in. Lg., 1.000 in. W., 0.600 in. H.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:
