End Application:

F100-pw-100/200 turbofan engine

Nominalheight:

10.500 inches

Nominaldiameter:

37.500 inches

Special Features:

Steel; company item name-fixture drill case fan 1st stage

Functional Description:

Supports repair of damaged front flange on the 1st stage fan case

Unpackaged Unit Weight:

75.000 pounds

Reference Data And Literature:

T.O. 2j-f100-94

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
