**Overall Length:**

24.000 inches

**Overall Height:**

24.000 inches

**Overall Width:**

24.000 inches

**End Application:**

F-115e aerospace support equip

**Special Features:**

C/o coalescing filter, sieve beds, a backup plenum chamber, valve assemblys, oxygen and pressure sensors, controller/monitor, and particle filters; aluminum

**Functional Description:**

Jused with a vacuum pump and filter/regulator to verify that the concentrator is functioning properly as a unit, providing oxygen at an acceptable parametric range to the molecular sieve oxygen generating system

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
