End Application:

Tf-39, t56 and gtc fuel cont

Special Features:

Transducer tap block 1; gtc fuel control conversion hardware; interface test adapter block 1; operator keyboard 1; adaption kit assembly 1; crt display assembly 1; purge area blower 1; station tap blocks 1; station power assembly 1; precision power supply 1; programmable power supply 1; 28.0 vdc power supply 1; real time computer sys 1; hard disk drive sys 1; pneumatic gauge panel 1; intrinsic saftey barrier assembly 1; annunciator panel 1; measurement and control system 1

Functional Description:

Used for testing the aircraft fuel system components

Reference Data And Literature:

High flow test stand maintenance/calibration manual--auto test sysjet engine accessories, (gas turbine engines & tf39 fuel accessories

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
