Product Name:

Interoperability system test staion

Functional Description:

Provides capability for e-3 mission avionics interoperability testing, software program development, maintenance of existing and planned e-3 operational computer programs; system can interface with an operational e-3 aircraft and/or e-3 mission simulator to provide a realistic testing environment

Reference Data And Literature:

T.O.43d3-10-2-154

General Description:

8.170 ft h; 65.000 ft d; 30.000 ft w

Fsc Application Data:

E-3 aircraft and e-3 mission simulator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
