End Application:

F101-ge-102 engine; b-1b acft

Functional Classification:

Gg-7.4

Special Features:

Oc/o a 2.47 in. Dia., 20.000 in. Lg alum rod; has a flat surface cut on both sides for clamping surface; other end of rod has a 1.8 x .87 x .28 deep slot to provide a recess directly under racetrack area to be welded

Functional Description:

Used during weld repair of the flameholder ignitor can racetrack area

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
