Special Features:

C/o: an 1.000 in.Dia; 1.000 in.Lg; cylindrical bar.On one end, the heat sink has a concave surface that mates with the convex face of the disc assembly;

Functional Description:

Serves as a disc guard and protects the convex face of the disc assembly from thermal damage during the welding procedure; used on the c-17 acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
