Usage Design:

Actuators

Special Features:

C/o four hose assemblies; two adapters for use on variable stator vane system, and fan igv system; o/a dim: 2.000 in. H., 2.000 in. W., 18.000 in. Lg.

Functional Description:

Provides an interface btwn special fittings and a portable fuel pressurizing unit w/sealing off main fuel control to pressurize the actuators

Unpackaged Unit Weight:

15.000 pounds

Fsc Application Data:

F110-ge-129 engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
