Overall Length:

10.000 inches

Overall Height:

4.000 inches

Overall Width:

8.000 inches

End Application:

B-1b aircraft age.

Functional Description:

Used to fault isolate/verify performance of portable supply stand. Provides control of functions of pump assembly; operation of by pass solenoid valve; monitoring of oil level; measurement of ac/dc voltage and resistance; measurement/indication of oil flow rates

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
