Usage Design:

Low altitude navigation and targeting infrared for night

Special Features:

To name: targeting set control test program set, an/aaq-14

Functional Description:

Supplies stimuli/monitoring lru responses

Reference Data And Literature:

To 33d5-24-20-2; serd i-12d

Supplementary Features:

C/o test program disk, interface test adapter, test program instructions fixture, and a cable set

Fsc Application Data:

Low altitude navigation and targeting infrared for night

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
