Special Features:

C/o combination of test drawers/new equipment. C/o displays test equip rack/display unit test assembly. Equipment drawers contained in six racks are: power distribution panel; station controller; test station power supply assembly; disk/magnetic tape assembly; switching complex; digital interface adapter; digital interface adapter auxiliary panel; digital multimeter; oscilloscope; sampling analyzer; data coupler; generator, signal, waveform; adapter, iff reply evaluator; power supply assembly 2; lru blower panel; If digital readout electronic counter; programmable pulse generators 2; regulated voltage power transformer; impedance unit; power supply lru; video monitor assembly; printer; and display unit test assembly

Functional Description:

Pperforms complete end to end testing of lrus, isolate faults within each lru to lowest intermediate level replaceable plug in type module, card, or component as required, and perform any necessary alignment/verification

Reference Data And Literature:

Serd no 8611

Supplementary Features:

Company item name-test station displays

Fsc Application Data:

F-15 e aircraft age.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
