Special Features:

C/o programmable dc power supplies; programmable ac power supply; 34 vac 0/180 transformer; dc loading; resistive loading; function generator; digital multimeter; counter; digital inputs; digital outputs; relays; timer; circuit breaker, 115 vac, 60 hz three phase switch type; terminal; cable assembly

Functional Description:

To perform fault verification, troubleshooting, and final acceptance testing of the circuit card assembly in the singer electronic system; used on the c-130h gunship

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
