**End Application:**

C17 aircraft ground support equip

**Nominalheight:**

2.000 inches

**Nominaldiameter:**

3.000 inches

**Functional Classification:**

Gg-7.4

**Special Features:**

Material: stainless steel; the fixture can handel 6000 psig

**Functional Description:**

Provides a safe and efficient means of interfacing the solenoid valve to the hydraulic test stand when conducting fault isolation and functional checkout procedures

**Unpackaged Unit Weight:**

2.500 pounds

**Reference Data And Literature:**

Serd no. 45044

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
