End Application:

C17 aircraft ground support equip

Nominalheight:

2.000 inches

Nominaldiameter:

3.000 inches

Functional Classification:

Gg-7.4

Special Features:

Material: stainless steel; the fixture can handel 6000 psig

Functional Description:

Provides a safe and efficient means of interfacing the solenoid valve to the hydraulic test stand when conducting fault isolation and functional checkout procedures

Unpackaged Unit Weight:

2.500 pounds

Reference Data And Literature:

Serd no. 45044

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
