End Application:

Milstar ehf/uhf terminal

Special Features:

C/computer group-vs3200 8 plane color graphics vax station/w 19in. Color monitor and table/8m bytes memory/tk50 95m byte cartridge tape & controller/ra82622m byte fixted drive and kda50 controller/ba23 expansion box/multiplexer/communications controller/printer/modem

Functional Description:

Used to troubleshoot and fault isolate the sru's to the component level

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
