End Application:

C17 aircraft ground support equip

Nominal length:

6.000 inches

Nominal width:

4.000 inches

Nominal height:

2.000 inches

Special Features:

Matl: stainless steel

Functional Description:

Provides a safe and efficient means of interfacing the selector valve to the hydraulic test stand when conducting fault isolation and functional check-out procedures

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
