Overall Length:

4.667 feet

Overall Height:

3.667 feet

Overall Width:

2.250 feet

Assembly Form:

Rigid

End Application:

B1-b aircraft age.

Work Holding Device Position Adjustability:

Nonadjustable

Special Features:

Four castered wheels

Functional Description:

Used to hold engine bleed air precooler for component replacement and tfacilitate welding operations

Reference Data And Literature:

Serd no. 41j526

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-c
