**Overall Length:**

4.667 feet

**Overall Height:**

3.667 feet

**Overall Width:**

2.250 feet

**Assembly Form:**

Rigid

**End Application:**

B1-b aircraft age.

**Work Holding Device Position Adjustability:**

Nonadjustable

**Special Features:**

Four castored wheels

**Functional Description:**

Used to hold engine bleed air precooler for component replacement and tfacilitate welding operations

**Reference Data And Literature:**

Serd no. 41j526

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T361-c
