Overall Length:

4.667 feet

Overall Height:

3.833 feet

Overall Width:

2.667 feet

Assembly Form:

Rigid

End Application:

B-1b support equipment

Work Holding Device Position Adjustability:

Nonadjustable

Functional Description:

Used to hold engine bleed air precooler (p/n ua537577-4) while performing repairs and replacement of components and to provide alignment of components to facilitate welding procedures; steel construction, 4 casted wheels

Reference Data And Literature:

Serd 41j25c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
