End Application:

An/alr-56 se; an/alm-246; analog module test set

Test Item Connection Method:

Cable

Functional Description:

Bprovides electrical/mechanical interface btwn 150-031326/150-031327 assemblys of an/alq-135 p3i update system, and an/alq-205b test set for sru performance verification, adjustment, and fault isolation

Reference Data And Literature:

Dd-61 ael-90-r019

Fsc Application Data:

F-15 aircraft age

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
