Overall Length:

17.000 inches

Overall Height:

8.000 inches

Overall Width:

17.000 inches

End Application:

An/alq 13 (v) f-15 ground use

Test Item Connection Method:

Connector

Special Features:

Adapter housing assembly ruggedized so no damage occurs to exposed electrical connectors; 1 holding fixture; 1 interface adapter panel; 1 adapter housing assembly; required electrical, radio frequency, and video cabling

Functional Description:

All interface functions/electrical connections and proper termination and buffering; a means for securely mounting the uut; a means for dissipating heat by providing for cooling air or heat sinks; provides the electrical interface via interface adapter panel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
