End Application:

4920-01-241-3722

Nominalwidth:

3.040 inches

Nominalheight:

4.180 inches

Special Features:

Castable heat cured polyurethane, elastomer; 125 microinch all surfaces machine finish

Functional Description:

Used to hold stage 1 fan rotor blades for glass bead peering airfoil

Reference Data And Literature:

G. E. Dwg. No. 9455m49

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
