**End Application:**

Test set, digital module, an/alm-206b

**Test Item Connection Method:**

Connector

**Special Features:**

Provides high voltage protection, signal buffering, conditioning, and proper impedance termination

**Functional Description:**

Used to test the techniques generator cca, an sru of the an/alq-13 (v) f-15 internal countermeasures set

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A537k0
