End Application:

F101-ge-102 aircraft engine

Product Name:

Fixture, machine, shaft hpt rear

Special Features:

C/o base; clamping ring

Functional Description:

Used for depot level repair of the high pressure turbine rear shaft

Reference Data And Literature:

Serd no. 1517a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
