**End Application:**

F110-ge-129 aircraft age.

**Component Quantity:**

8

**Usage Design:**

Variable stator vane actuator compressor stator

**Product Name:**

Fixture, rigging set-variable stator vane

**Special Features:**

C/o 2 welded assemblies, 2 rigging pins, 4 screws

**Functional Description:**

A slave duct is required to provide access to rig the vsv actuation system

**Reference Data And Literature:**

Serd 1408

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
