End Application:

F110-ge-129 aircraft age.

Component Quantity:

8

Usage Design:

Variable stator vane actuator compressor stator

Product Name:

Fixture, rigging set-variable stator vane

Special Features:

C/o 2 welded assemblies, 2 rigging pins, 4 screws

Functional Description:

A slave duct is required to provide access to rig the vsv actuation system

Reference Data And Literature:

Serd 1408

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
