End Application:

F-15e aircraft support equipment

Special Features:

C/o ate ext board, plug-in unit ext board, ate breakout box, power control monitor ext cables, temp/volt monitor ext cable, storage case

Functional Description:

Through the use of extender boards, extender cables and a breakout out box, augmentation of the self test fault isolation capabilities of the mets ate (ccmu, sgc, ci) and ita is possible. This particular capability can be used at intermediate and depot levels. The mets kit is recommended to provide this capability

Reference Data And Literature:

Serd 4017

Fsc Application Data:

Mets ate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
