End Application:

F100 ground support equip

Nominal length:

16.000 inches

Nominal width:

3.000 inches

Nominal height:

2.000 inches

Special Features:

Stainless steel

Functional Description:

Dused to determine finish length of ps2 pressure tube and positions tube in outer elbow at proper radial and angular position for brazing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
