End Application:

C-17 aircraft age

Special Features:

Hc/o inlet flowmeter; outlet flowmeter; motor current meter; motor connector; transducer output meter; capacitance meter; inlet pressure gauge; outlet pressure gauge; oxygen concentration per cent analyzer; inlet pressure regulator; inlet flowrate regulator; i/o pneumatic ports; 28.0 vdc or 115.0 vac, 400.0 hz; filtered shop air at 140.0 psig 25.0 cfm; 36.000 in h, 18.000 in w, 12.000 in d; 80.0 lbs; company item name--test stand, oxygen generation system

Functional Description:

Used to test the air separation modules of the on-board inert gas generating system

Reference Data And Literature:

Douglas aircraft co serd 490047

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
