End Application:

B-1b aircraft support equipment

Special Features:

C/o fail safe test fixture body, dummy actuator-684v series, plug and pin

Functional Description:

Used to perform a fail safe test on the liquid coolant loop thermal bypass valve

Reference Data And Literature:

Serd 41j22c

Fsc Application Data:

Test stand, liquid coolant component

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
