**End Application:**

Converter-transducer, f-16 a/b/c/d acft

**Special Features:**

C/o base plate; positioning rod; alignment block; spring; threaded lug; support block assembly; dial indicator

**Functional Description:**

Used for checking spring loading by measurement of piston travel during application of pneumatic pressure; piston travel of 0.06 to 0.09 in.

Will require measurement

**Reference Data And Literature:**

Serd 41220

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
