Overall Length:

2.833 feet

Overall Height:

4.000 feet

Overall Width:

4.667 feet

Assembly Form:

Rigid

End Application:

B1-b aircraft age.

Work Holding Device Position Adjustability:

Nonadjustable

Special Features:

Four swivel castered wheels

Functional Description:

Used to support engine bleed air precooler (p/n ua537577-4) while performing repairs and replacement of components

Reference Data And Literature:

Serd no. 41j27c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-c
