End Application:

C-17 aircraft age.

Nominallength:

3.000 inches

Nominaldiameter:

1.500 inches

Special Features:

Matl: aluminum; 2.0 lbs

Functional Description:

Provides a stable fixture during assembly/shimming of poppet shaft during re assembly of shutoff valve

Reference Data And Literature:

Serd no. 460093; rcn: 1-2108-82-2050

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
