End Application:

C-17 aircraft age

Specific Usage Design:

Support driven compressor assembly by main shaft using driven compressor assembly holder adapter, and allow stretching of the main shaft

Nominalheight:

28.000 inches

Nominaldiameter:

14.000 inches

Functional Description:

Used to hold tie shaft or compressor main shaft to be stretched

Unpackaged Unit Weight:

22.000 pounds

Reference Data And Literature:

Serd no. 240126; rcn: 1-2108-82-2050

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
