**End Application:**

Ac motor pumps p/n 693640, used on the c-17 acft

**Nominalheight:**

1.410 inches

**Nominaldiameter:**

4.125 inches

**Special Features:**

Material: 4140 steel; finish: passivate

**Functional Description:**

Holds the nine piston and shoe subassemblies during lapping procedures to insure uniform shoe thickness, parallel shoe surface, and to obtain the proper surface finish

**Unpackaged Unit Weight:**

4.000 pounds

**Reference Data And Literature:**

Douglas aircraft serd no. 450122

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
