End Application:

Ac motor pumps p/n 693640, used on the c-17 acft

Nominalheight:

1.410 inches

Nominaldiameter:

4.125 inches

Special Features:

Material: 4140 steel; finish: passivate

Functional Description:

Holds the nine piston and shoe subassemblies during lapping procedures to insure uniform shoe thickness, parallel shoe surface, and to obtain the proper surface finish

Unpackaged Unit Weight:

4.000 pounds

Reference Data And Literature:

Douglas aircraft serd no. 450122

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
