End Application:
Ac motor pumps p/n 693640, used on the c-17 acft
Nominalheight:
1.410 inches
Nominaldiameter:
4.125 inches
Special Features:
Material: 4140 steel; finish: passivate
Functional Description:
Holds the nine piston and shoe subassembles during lapping procedures to insure uniform shoe thickness, parallel shoe surface, and to
obtain the proper surface finish
Unpackaged Unit Weight:
4.000 pounds
Reference Data And Literature:
Douglas aircraft serd no. 450122
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A505c0
