End Application:

C-17a aircraft

Nominallength:

3.000 feet

Special Features:

Material is aluminum and steel; this item is used in conjunction with the transducer indicator (4920012866545), the tester base (4920012622655), the hand pump (4320009988206), the hydraulic hose (4720012058698), the multimeter (6625011960014), and the d.C. Power supply (6130001481796)

Functional Description:

This fixture is used to secure tester base for verifying the load cell; this fixture is a mechanical device which restrains the airdrop platform until a preset force is reached and when the preset force is reached the vrl automatically trips the airdrop platformch automatically trips the airdrop platforms exit the aircraft

Unpackaged Unit Weight:

30.000 pounds

Reference Data And Literature:

1c-17a-4-4; serd: 980525; 980611

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A505c0
